An intuitive and easy-to-use tube packaging solution that is similar to lipstick. The twist mechanism with on and off system to let consumers have control of the amount to apply without any waste.

More decoration options on the barrel such as metalized, hot stamping, offset and silkscreen printing to create chic styling.

Different applicator options including flocking sponge, soft tip, flocking tip and roller ball. Cosmetics or skin care products can be applied on the skin with gentle touch.

A perfect combination of applicator, formula and tube packaging. Suitable for on-the-go consumers without bring various separate tools.
